

# AESTHETICS WITH SPECIALISATION DRAMA

This programme will give an education specialising in acting and theatre. You will work with improvisational theatre, forum theatre, monologues, dialogues, scripts, devising theatre and will direct and produce three major performances.

IEGS is located on Södermalm at the old "Teaterhögskolan". We have a large aula developed with the aim of staging large performances, and a black box; our acting studio. You will also visit the theatre regularly as a part of our curriculum.

This programme not only equips you with acting skills, but with a range of life skills needed for higher education. You will build confidence, creativity and learn to work collaboratively. Former students have pursued careers in performance arts and dance, or taken what they have learnt with us to pursue careers in international relations and teaching.

## Core Gymnasium (1150 points)

Course	Points	Year One	Year Two	Year Three
